

# The Term Project Revisited (30 Points)

---

- ❖ Form teams that consist of at most 3 people
- ❖ Send me a note about your team and direction by **March 28**
- ❖ Choose one of the following options:
  - ❖ **Option 1:** Build a web server using Java, or any language of your choice.
    - ❖ Basic requirements: HTTP, logging & multi-threading
    - ❖ Optional features: authentication, bandwidth throttling, server-side scripting, caching, non-blocking IO, SSL, etc.
  - ❖ **Option 2:** Build a web server using Java and **HttpCore API**.
  - ❖ **Option 3:** Build a web site of your choice using XAMPP, or Java Servlets/JSP and Apache Tomcat
- ❖ Feel free to be creative and suggest other possibilities
- ❖ **Option 1** gets 3 extra credits (max: 33/30).
